Now that your app is installed:

If you want this app to be your default content at turn-on, there are two additional steps you must perform:

1. Set this app as the "Custom input source"

2. Set the "Custom input source" as the "Boot-on source"

1. Set the Custom Input Source

 Enter Android Menu: Press Home 1888 on the RC
 1-8-8-8

to enter the Android menu

• Select Settings
